Choice of modules and frames: modules available in 3 finishes, frames available in 7 finishes

Motion & Control

As a world leader in automation systems, our remotes offer a range of control solutions to suit your needs. Somfy's unique and stylish range of remote controls provides users with the ultimate in convenience – all at the touch of a button. In conjunction with the broad range of sensors, you will have the ability to create energy efficient, convenient environments to improve the well-being of occupants in all living spaces.

Easy to live with

Smooth Open/Close is dedicated for horizontal applications design and customized installation.

- Sustainable design
- A choice of frames to suit all styles
- Wireless solution easy to install anywhere, without damaging the walls

Our quality testing procedures ensure all motors, controls and sensors conform to national and international safety and electrical standards.

Automation & Centralization

Motorized applications are automatically managed by the timer function time programming for each zone of the home with up to 6 time slots per day.

Simplicity

- A large screen detailing all information
- Simple interface and ergonomics

More security

- "Presence Simulation function" to simulate a presence at home
- Applications can be closed automatically in the evening

More energy saving

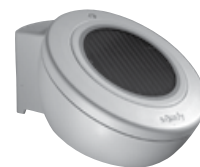

- The Twilight function automatically allows to take account of variations in daylight hours. Essential for improving window insulation in winter.

Easy to use

- Telis 6 Chronis RTS propose a large screen detailing all information which can be read comfortably

Sensors Offer The Ultimate Functionality

Protect your indoor-outdoor area by installing an automated weather sensor that will open or close your Louvre System at the predetermined setting ensuring you maintain complete comfort. Your interiors will be protected from the sun when equipping your system with a sun sensor, closing automatically when the sun enters your building. Save on air conditioning running costs and improve
